LOCATION OF THE NEW DEPOT.

Mr. Koehler's Objections to a Change of Site—Telegram from Chas. F. Crocker.

Mr. John G. Wright, president of the Salem Board of Trade, yesterday received a telegram from Chas. F. Crocker, in response to a telegram of inquiry about the location of the new depot.

John G. Wright, President of the Board of Trade:—The matter of new depot for Salem is under consideration with Mr. Koehler. Location will be made as convenient as possible and ample provision made for the necessities of your people.

CHARLES F. CROCKER.

From this it will be seen that Receiver Koehler is to have a say in the location of the new depot, and this means that the old site will be chosen. The ground now owned by the company will revert to the donors when it ceases to be used for depot purposes, and Mr. Koehler has several times expressed his opposition to a change of location on this score.

Another objection to locating the depot at the State street crossing is the grade between there and Mill Creek, which is so steep that a train cannot be easily stopped and started on it. Still another objection is the cost of property needed for depot purposes. The Board of Trade is interested in the matter and will no doubt bring the matter to a conclusion satisfactory to all parties concerned.

Oregon Swamp Lands.

Col. G. F. Elliot, United States swamp land agent, has just returned from the East. Monday Governor Penneyer and Col. Elliot held a conference. The governor decided to appoint a swamp land agent to act in conjunction with Col. Elliot. It will be remembered that the work was well under way last year but weather became inclement in the Fall it was abandoned. It is a well known fact that much of the land that has been taken up as swamp and overflowed land was never wet save by the rains and dew of heaven. The commissioners will examine this disputed land and report on its character. It is thought the commissioners will begin work in the vicinity of Lakeview, Lake county.

BAND CONCERT.

The Second Regiment band will give the first open-air concert of the season at their stand in Wilson avenue this evening at 7:30 sharp, weather permitting. Patrons of the band and the public generally are invited. Following is the program:

Selection, "Lucinda Borgia," Pontrelli.
Baritone solo, "Polka Lido," Jennings, Dick Riley.

Cornet solo, "Patriot Polka," Chambers, J. M. Coomer.
Schottische, "I Had \$15 in My Inside Pocket."
Quickstep, "Burr Rag," Cogswell.

Railroad Rumor.

Robert Harris, President of the Northern Pacific Railroad, is in California, and it is rumored that one object of his visit is to arrange with the Southern Pacific to run the two roads in connection, for San Francisco and Portland traffic, and thus displace the Union Pacific in the carrying trade overland. It is thought that better terms can be made under this arrangement than as things exist, as to rates.

—Portland News.

Completed his post-graduate course.

Dr. William Farley, a graduate of the Willamette University, medical department, class of '78, is in the city. Dr. Farley has just returned from New York city, where he completed a post-graduate course in the Bellevue Hospital Medical College. He will go to Dallas to-morrow to visit his parents, and after remaining there a while will settle down to the practice of his profession at some place in the valley.

Business Notice.

Mr. Jas. R. Shepard, an experienced newspaper man, has assumed the business management of the CAPITAL JOURNAL. We commend him to our citizens, among whom he is well and favorably known, and trust they will extend to him a liberal share of patronage.

News To Is.

Report comes that St. John the apostate was threatened at Salem with rotten eggs and disturbance. It is doubtless a made-up rumor. The citizens of Salem are not addicted to such outrages. St. John should invent some other trick of the trade he is in. —Portland News.

A STEAMER IN PERIL.

The Steamer Three Sisters Narrowly Escapes Being Destroyed.

Yesterday afternoon as the steamer Three Sisters was lying at dock in Portland Steward Frank Bean, discovered smoke issuing from the room of Wachman Guy Powers. On opening the door such a cloud of smoke and flames poured out of the room that Bean was nearly overcome, but he bravely gave the alarm. The boats hose was immediately brought to bear on the flames and they were subdued after doing about \$100 worth of damages. The origin of the fire is a mystery as Powers who had been sleeping all day had just left the room, leaving no fire of any kind behind him. The Three Sisters will arrive at Salem this evening.

THE CITY PRINTING.

ED. CAPITAL JOURNAL:—I read your article in the issue of Saturday commenting on the business sagacity of the city council of Salem in advertising for bids to do the city printing, and then awarding the contract to the highest bidder. If these municipal Solons had made up their minds in advance whom they would give the work to, why go to the expense of inviting bids? In rejecting your offer, which was 25 per cent. lower than the Statesman, they cast fairness aside and showed their scorn for business methods. Why attempt to keep up any show of decency, since they tore down their thin disguise at last?

I am reminded of a similar trick that was practiced in my former home in Indiana, when a number of bids were put in for a contract to grade and macadamize three miles of streets. It was thought there was a chance to make some money out of this, so three of the city fathers set their heads together and put in a bid which was accepted by the council, the other bids that were before them, offering lower figures being rejected. This being noised abroad, the newspapers took it up, and the next little enterprise was busted. I claim that this fraud of the Salem city council in the matter of the city printing should not be submitted to by taxpayers, and I for one protest against it.

THE MATTER PLAINLY STATED.

Is It Wise to Drive Good Citizens Away by Abuse and Vilification?

ED. CAPITAL JOURNAL:—To what is this political campaign degenerating? Is argument to be all thrown away, and are utterly false statements to be published for the sole purpose of casting odium and contempt on those who differ politically with the editor of the Statesman? To-day those who congregate around street corners and in saloons are laughing at a statement in the columns of your contemporary that declares that Mr. John P. St. John and I trespassed on a certain farm for the purpose of fishing in Mill Creek. Now the simple fact is that the West Bros. offered us the privilege of going upon the premises. When we reached the house at the farm, Dr. J. W. Wyatt, who had obtained the permission, went to the door and so informed the boy who was there. Mr. St. John and I did not leave the carriage, but a "hired man" ran to open the gate for us and we drove through. There we fished, read the papers and chatted, while my two children gathered wild flowers, and not a man, hired or otherwise, not of our party, spoke one word—good, bad or indifferent—to Mr. St. John or myself.

Now is it not, as the speaker said last night, a fact that the course of such a paper is doing more to drive decent people from the republican party than St. John could ever do? The Statesman has for over a year persistently and maliciously hounded and falsified me till he made the church I was serving as pastor embarrassed in feeling, and I have voluntarily stepped down and out from that pastorate. But with what result? Only to put me fully into the prohibition party work in this county and the state at large. Does that help it or its party, or tend to lessen the prohibition vote? It has utterly failed to alienate a single friend from me, or to generate the slightest coolness or unpleasantness between me and the church. Since my resignation I have repeatedly preached for them, and am to-day as welcome in the pulpit, prayer meeting, Sunday school and homes of the church as ever. What further may be indirectly accomplished? I patronized the schools of this town. I gave my best efforts to building up its moral and material interests. I purchased 45 acres of land close to town, not knowing but that I might make my permanent home thereon. The members of my family have seconded my efforts to be of some use, morally and socially, in the community. Now, in due time (when I get ready, and not an hour before,) I shall probably dispose of my interests here and move elsewhere, perhaps out of the state. But not to cease laboring in my humble and tireless way for God and humanity. I shall now be able to reach thousands where before I obtained the ear of but scores, to build up the only state and national political party that declares against the liquor traffic.

If this policy is a beneficial one for the Statesman or the county, let that paper continue it to its heart's content. I am not as in former years a republican, and my gratuitous advice or suggestion may not be weighty with you; but I believe that if the CAPITAL JOURNAL will maintain a dignified and independent tone and course, even though it can be Republican-wise, and give the news fully and fairly, it can build up a large circulation in and even beyond Marion county.

Yours respectfully,
J. W. WEBB.

Their Business Booming.

Probably no one thing has caused such a revival of trade at H. W. Cox's drug store as their giving away to their customers so many free trial bottles of Dr. King's new medical discovery for consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, colds, asthma, bronchitis, croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

Renewed From Inaction.

The precursor of their disease and destruction, the kidneys and bladder healthily stimulated and toned with Hostetter's Stomach Bitters, actively resume their functions. Thus Bright's disease, diabetes, catarrh of the bladder and enuresis are prevented. For irritating diuretics, and those unmoderated and fiery stimulants which, used even in moderation, excite both the renal and vesical organs, this is the best possible substitute. It is of benignant composition, and so congenial to the stomach, the digestive processes of which it helps in no ordinary degree, that it is promptly assimilated by the system, and its tonic effects are speedily felt. Not only does it remedy inactivity of the kidneys, but renews a regular habit of body, promotes a due secretion and healthy flow of bile into the proper channels, and expels from the circulation morbid principles productive of rheumatism and gout. It is also the leading specific for malarial complaints.

In the pamphlet printed by the Oregon Land Co., of this city, a handsomely written article is inserted from the pen of Frank Pixley, which appeared in the Oregonian some time ago. This prominent journalist was one of the first party of excursionists over the Oregon & California railroad, and he performed the long journey as much for the purpose of improving his mind as enjoying a deadhead ride. He like the writer in the Alta California, whose article we reprinted a few days ago, is warmly impressed with the fine opportunities presented by this state to the farmer, the fruit grower, the dairyman and the wool raiser, and is fair-minded enough to award Oregon the credit that is its due.

THE senate bill for a new public building in this city, to cost \$100,000, passed that body yesterday. Now it has to fight its way through the lower house, where its chances of passage are facilitated, because the majority of its members are specially desirous to win this state in the coming election.

Knight's Addition.

The plat of Knight's addition to Salem has been filed in the office of the county clerk by Rev. P. S. Knight. This property has already been described in this paper, and is one of the most eligible building locations in the city. Lots will be placed in the market in a few days.

Preparing to Build.

R. Ashford is preparing to build a residence on the five-acre tract of land east of the asylum, he recently purchased of C. H. Chapman.
